ADJUSTS TO THE
ANIMAL'S SIZE

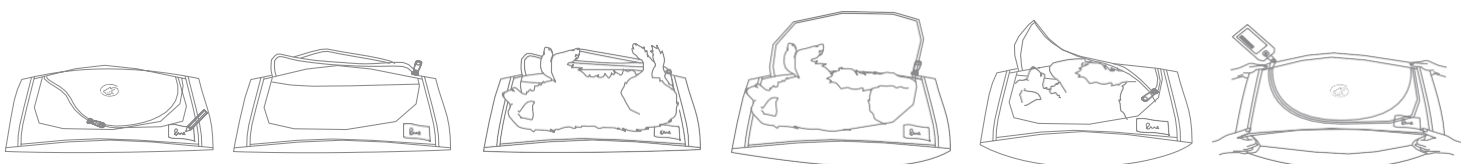

IDENTIFIABLE: WITH

A PEN, A MARKER OR A
LABEL ON A SHIPPING
TAG

DESIGNED FOR **INCINERATION** AND **BURIAL**, NOT IMMEDIATELY **BIODEGRADABLE**

DESIGNED AND PATENTED IN CANADA
BY A VETERINARIAN, FOR VETERINARY TEAMS

US and Canada patented

A body bag honoring the bond between the vet team, the pet and the family

Treating patients like your own

BENEFITS

PROFESSIONAL

Choosing the highest standard available contributes positively to your **image**, the **professionalism** of your team and respects the families bond with their pets.

PSYCHOLOGICAL

Your team of professionals will simply **feel better** using Euthabag.

ECOLOGICAL

Euthabag contains **no heavy metals, chlorine nor PVC**. Used and endorsed by crematoriums, it can also be buried.

FINANCIAL

Euthabag fees, like other medical supplies can be passed on to the client fairly. By adding **just \$10** to the euthanasia fee, you can offer the best to your client, patient and veterinary team at **no additional cost** to your practice.

LIABILITY

As stated in the new **AVMA** Aftercare Policy, deceased pets should be handled in a **sensitive** manner so as not to disturb anyone requesting to view the pet. The use of **plastic bags** for the disposal of deceased pets has been the ground for many veterinary **professional complaints**. Euthabag provides adequate containment, preserves the animal's dignity and promotes veterinary staff well-being.

"I am very thankful to finally have a respectful option to offer clients when their animals have died. Euthabag has made some difficult conversations much easier."

Dr. L.R., DVM DES., Dipl. ACVIM

"I have always been proud of all the great care we provide for pets and their families. The garbage bag just was not an appropriate end to that relationship. Euthabag fills a void; we could not envision going back."

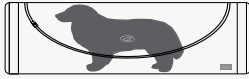

Dr. LPdL, DVM, Dipl. ACVIM Oncology

"All my patients deserve this respect and my employees too."

Dr. M-C.L., DVM

With Euthabag we are now able to demonstrate respect and professionalism in **EVERY** aspect of practice.

STARTER KITS: 41 or 46 BAGS

HAVE YOU HEARD OF THE AVMA COMPANION ANIMAL AFTERCARE POLICY?

The AVMA has published a policy on aftercare,* providing guidelines to help make informed choices. The AVMA recognizes that an owner's attachment to their pet extends beyond death. The policy focuses on three areas: using trustworthy aftercare providers, maintaining the pet's remains in a condition suitable for return to the pet owner, and encouraging pre-planning with the family. Families want their loved one's dignity to be preserved and are willing to pay to ensure this. Using an adapted body bag allows the team to feel consistent with their standards of practice and their empathy. It is a medical supply and its cost is passed on to the client.

EUTHABAG can help you comply with the AVMA Aftercare Policy.

PET OWNERS' EXPECTATION FOR PET END-OF-LIFE SUPPORT AND AFTER-DEATH BODY CARE: EXPLORATION AND PRACTICAL APPLICATIONS (2020)

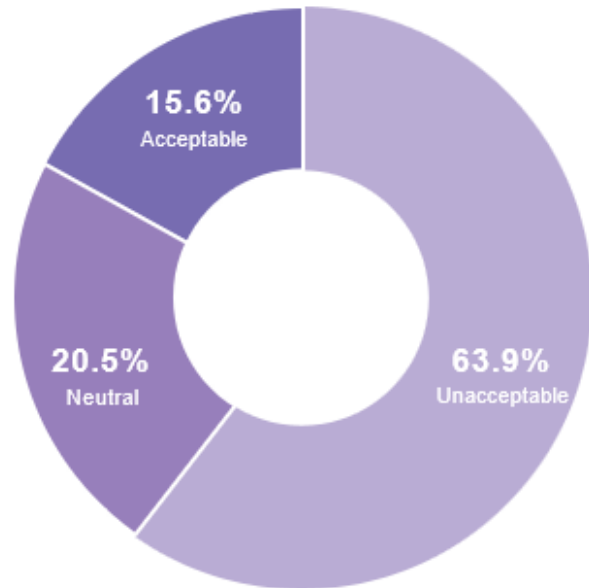

A study done on 1,938 pet owners by Kathleen Cooney, DVM, the key opinion on end-of-life.

The following question was asked:

Is placing your animal in a plastic bag after death acceptable to you?

Only 15%*

of pet owners find the plastic bag an acceptable way to store their pet after euthanasia.

COMPANION ANIMAL AFTERCARE POLICY

"Deceased pets, whenever possible, should be maintained in a **condition suitable for return to the owner** or to the aftercare providers such that families may witness their pet's aftercare."**

*Cooney K.A., Koghan L.R., Brooks S.L., Ellis C.A. (2021). Pet Owners' Expectations for Pet End-of-Life Support and After-Death Body Care: Exploration and Practical Applications. Topics in Companion Animal Medicine 43, 1-8.
